Dear Sir/Madam,

Future ban on the sale and supply of single use vapes in Jersey

The consultation to understand the impact of a ban on the sale and supply of single use vapes closed on 9 May 2024 and I would like to thank you for your contribution if you provided a response.

I will now be moving forward with the work necessary to support the proposed ban.

It is my intention to bring this before the States Assembly for debate and agreement in the autumn, with a view to the ban on single use vapes coming into effect in April 2025.

I hope that this letter sets out my plans and by doing so, provides you with advance notice to support any preparations you may need to make.

Yours sincerely

Connétable Andy Jehan
Minister for Infrastructure
