

Officer – Finance Systems

Department: Treasury & exchequer

Division: Finance Hub

Reports To: Specialist – Finance Systems

Job Ref: STE042

Grade: CS07 **JE Date:** 24/05/2019

Job purpose

Maintain the Government key finance systems, run system generated reports as required by end users and provide help, advice and training as required and resolve system issues as they occur.

Job specific outcomes

- 1. Maintain and run system reports and data structures including charts of accounts, customer and supplier accounts, and pensions data ensuring KPIs and SLA performance measures are met consistently in order to provide good customer service to system end users.
- 2. Identify and implement business process re-engineering solutions and system modifications to maximise functionality, improve efficiency and meet user needs.
- 3. Provide training for users of core financial systems, helping users to maximise the use of the current and new finance systems.
- 4. Provide first-line customer support to system users in finance and departments on an adhoc basis, document and analyse reports of system deficiencies, to resolve finance systems issues / failures as they occur at a level appropriate for their role so that they meet team SLAs and KPIs.
- 5. Conduct system testing in line with testing plans in order to test existing and new system functionality and controls.
- 6. Support and educate data owners to drive improvement in the integrity of master data and managing how data flows effectively between systems.
- 7. Write system user-guides and update these for changes to systems to enable users to self-serve where possible.
- 8. Manage system administration, including configuration, workflow/ approval processing, and user security access so that Government financial system contain the latest information.
- 9. Effectively manage and prioritise their own workload to ensure that deadlines and standards are met.
