**Subject:** Fwd: Fishing industry future  
**Date:** Friday, December 23, 2022 07:46 UTC

I have tried to get the fishing community to work together to improve the trade France arrangements with France.

It is vital prepare, joined up in our decision, making and communication. We are making very good progress in ameliorating, dramatically the arrangements for Fisherman and landing their catches in France.

I am however on the front line of dealing with dramatically improving our French links.

We have secured some meaningful progress could not have been dreamed about a few months ago.

There are a number of initiatives and new ways of working that can help.

I would like to be working collaboratively with Jonathon and Kirsten on this matters.

Thank you

Philip
