

Household & Commercial Municipal Waste

Reuse	2021 (T)	2022 (T)	2023 (T)
Textiles	412	575	436
Wood	119	197	214
Total Reuse	531	773	650
% of Municipal Waste Reused	0.5%	0.7%	0.6%
Recycled Municipal Material	2021(T)	2022(T)	2023 (T)
Cardboard	3,616	3,488	2,595
Paper	2,208	1,866	1,061
Plastic Film	673	149	0
Plastic	137	118	89
Waste Electrical & Electronic Equipment (WEEE)	985	726	849
Batteries	13	26	13
Glass	5,409	5,218	5,378
Green Waste	11,204	10,232	11,964
Metals (household and scrap)	14,509	13,579	14,802
Gas cylinders	21	0	0
Plasterboard	2,692	2,690	2,562
Total Recycling	41,465	38,093	39,312
% of Municipal Waste Recycled	36.9%	35.0%	34.8%

Recovered Municipal Material	2021(T)	2022(T)	2023 (T)
Parish Deliveries to Energy Recovery Facility (ERF)	36,966	36,165	36,330
Miscellaneous deliveries to ERF	13,031	14,827	17,737
Bulky waste deliveries for shredding	18,677	16,489	17,051
Total Recovered	68,674	67,480	71,118
% of Municipal Waste Recovered	61.2%	62.0%	62.9%

Disposal	2021(T)	2022(T)	2023 (T)
APCR (Air pollution control residue)	1,439	2,348	1,962
Clinical	190	190	13
Total Disposed	1,629	2,538	1,975
% of Municipal Waste Disposed	1.5%	2.3%	1.7%
Total Municipal	112,300	108,884	113,055

Construction, Demolition, Excavation (CDE) - Inert			
	2021(T)	2022(T)	2023 (T)
Total CDE Inert	185,187	199,634	158,921

Reuse (See Note 1)	2021(T)	2022(T)	2023 (T)
Balance of CDE Material	101,220	57,796	57,026
% of CDE Inert Waste Reused	54.7%	29.0%	35.9%

Recycled	2021(T)	2022(T)	2023 (T)
Aggregates recycled	81,301	104,339	101,348
% of CDE Inert Waste Recycled	43.9%	52.3%	63.8%

Disposal	2021(T)	2022(T)	2023 (T)
Asbestos	686	562	547
CDE Contaminated	1,980	36,938	13,836
Total	2,666	37,500	14,383
% of CDE Inert Waste Disposed	1.4%	18.8%	9.1%

Sewage

Sewage processed (million cubic metres)	10.3	9	11.1
Percentage of sewage receiving full treatment	95.2%	98.1%	96.6%
Dried sewage sludge to ERF (Metric Tonnes)	1,451	2,407	1,837
Grit and rags from sewage treatment works to ERF (Metric Tonnes)	679	789	1,036

Note 1 - The balance of CDE Inert waste at La Collette is deemed as Reuse and is made up of fill material in the "Tip Head" and is used around the site as topping material for containment cells. It also has the potential for other reuse applications.
