Mike

Further to my email below.

John and I have discussed this morning, and we await the [REDACTED] draft.

In summary again, both John and I are clear that The Sports Academy signs up to deliver part 1 (the capacity). EDTSC and EDUC are signing up to deliver part 2 (the supply), and EDTSC and EDUC are signing up to part 3 (the interventions if part 2 doesn't work).

As long as all parties are clear on their responsibilities initially and also on their enduring, long term, responsibilities, we are in effect relying on a government guarantee to provide the community supply, and to step in if it doesn't work. We accept that is a matter for the two government departments to assess their initial and enduring responsibilities, and if you both are happy, then of course we are content to proceed as described above.

Kind regards
Andy

Mike

Pete LG and I have spoken this afternoon, and we now just await the POA draft from [REDACTED]. Upon receipt of this we can move it forward.

It simply needs to cover the following.

- 1) To secure the capacity being provided
- 2) To secure the supply from schools and sports (we are content that the two departments are in effect signing up to discharge this requirement and are speaking on behalf of the community).
- 3) To ensure that the community gift is secured into the future, if the Education and sports mechanism for some reason doesn't work.

As long as it does this, we are content. But part 3 is very important and so the step in mechanisms for intervention are key to this, as we have seen many times before that circumstances change, operators change, political

representatives change, and we don't want to end up with a facility in the countryside where there is no community benefit.

So over to [REDACTED], let's get the draft in.

Kind regards
Andy

Hi John

By way of update from our perspective (and I think I speak for Justin too).

We have agreed with the operator [REDACTED] the form of the SLAs with both Education and EDTSC. [REDACTED] [REDACTED] to produce a draft for approval. In essence we will be informed of the annual provision of schools and community use for any given year well before year-end and receive a regular report (three times a year coinciding with school terms) on utilisation. There will be mechanisms to intervene in the unlikely event utilisation fall below agreed levels.

In addition, Andy Scate has agreed that [REDACTED] produce the first draft of the POA in which the SLAs referred to above will sit as appendices.

For reasons that I cannot expand upon, there is extreme urgency associated with the completion of the POA. Education, EDTSC, [REDACTED], the operator [REDACTED] are all working as quickly as possible to do everything from our side.

Best

Mike

Hi John

Mike and I have just spoken further to a meeting that the operator and [REDACTED] have had today with EDTSC.

I am content that [REDACTED] produce the first draft of the POA for us [REDACTED] to look at. [REDACTED] happy with this as I've just confirmed with [REDACTED].

If we can then move forward quickly with the capacity/supply/and what if clause as we discussed this will help all parties.

Mike will be in contact tomorrow as there is now a direction [REDACTED]
[REDACTED] Hence the need for speed on the POA side to tie in with [REDACTED]
[REDACTED]

[REDACTED] is happy to expedite as soon as the first draft is received.

Thanks
Andy
