FUTURE HOSPITAL FUNDING STRATEGY (AS AMENDED) (P.130/2016, AS AMENDED)

PROPOSED DEBATE RUNNING ORDER

Proposed running order

Comments

Minister proposes P.130, as amended. He may wish to do so as amended by paragraph 1 of the 4th Amendment and paragraph 1 of the 2nd Amendment

If so, paragraph 1 of the 4th Amendment and paragraph 1 of the 2nd Amendment are adopted

Alternatively, after P.130, as amended, is seconded, the Minister will be invited to propose paragraph 1 of the 4th Amendment which is debated and voted on in the normal way, followed by paragraph 1 of the 2nd Amendment, which is dealt with similarly.

Deputy Le Fondré is invited to propose paragraph 1 of the 3rd Amendment on behalf of the Corporate Services Scrutiny Panel. This amendment is debated and voted on in the normal way.

Deputy Le Fondré is invited to propose paragraphs 2, 3, 4 and 5 of the 3rd Amendment on behalf of the panel. These must be taken together as they are inter-linked. The paragraphs are treated as one amendment, debated and voted on in the normal way.

If these paragraphs are adopted, paragraphs 2, 3, 5, 6 and 8 of the 2nd Amendment and paragraph 2 of the 4th Amendment fall away.

IF paragraphs 2 to 5 of the 3rd Amendment are adopted, the Minister will be invited to propose paragraph 4 of the 2nd Amendment, which will be debated and voted on in the normal way. Similarly, the Minister will next be invited to propose paragraph 7 of the 2nd Amendment which will be dealt with in the normal way.

IF paragraphs 2 to 5 of the 3rd Amendment are rejected, the Minister will be invited to propose paragraph 2 of the 4th Amendment

The Minister could seek to take paragraphs 4 and 7 together, although members may request separate votes on the paragraphs.

IF paragraphs 2 to 5 of the 3rd Amendment are rejected, the Minister will be invited to propose paragraphs 2, 3 (as amended - subject to the agreement of the Assembly), 5, 6 and 8 of the 2nd Amendment, which must be taken together as they are inter-linked. The paragraphs are treated as one amendment, debated and voted on in the normal way. The Minister will next be invited to propose paragraph 4 of the 2nd Amendment and then paragraph 7 of the 2nd Amendment, both of which are debated and voted on separately in the normal way.

The Minister could seek to take all the remaining paragraphs of the 2nd Amendment together, although members may request separate votes.

Once the amendments are dealt with, debate on the proposition, as amended, resumes. Once concluded, it is voted on in the normal way.

Needs sharp lines such as:

My/our sole focus is giving this Island the new hospital it needs and getting the right deal for taxpayers.

All of us here on Jersey, as patients and taxpayers want the same.

Both these objectives can be achieved.

The timetable for work to start can still be met IF...

But planning is not yet approved and I want to use that time to ensure every funding option is examined and we get the mix between borrowing and capital spend right.

I don't want us tied to a precise funding plan whilst uncertainties remain and until all the options have been fully explored.

That includes drawing on funds when the money is actually needed over the project period. Ian. We need to talk about a wider context for this. Let's chat?

Thank you, Cathy.

We've been told that the Chief Minister made the ultimate decision on the withdrawal of the funding plans prior to the Treasury Minister doing so.

Please could you kindly confirm whether this is true, and provide a comment?

Thanks again,
Fiona

Dear [REDACTED]

art 25

As requested. These workshops were focussed on site selection not funding. They were in response to SMs wanting to be more engaged in process after People Park option being withdrawn. Treasury I think would be better placed to provide details about funding. EY I understand were engaged by Treasury to produce a paper about funding but they were a different part of EY to the part we use as project advisors which would be normal separation in terms of governance. Such a paper would not normally come through the FH Project Team?

Please let me know if the attached are helpful.

I have cc'd Mark as we would normally respond to requests from other Minister's through our Ministers advisor

Kind regards

Bernard

Dear Alan

Re below, I enclose a simplified statement of expenditure vs budget to date for the Future Hospital, which was tabled to the Future Hospital Board last week and are the most up to date position.

Our current forecast shows that we will have sufficient funds to continue for the remainder of the year, but to provide a greater level of comfort we will be meeting with the project advisors (Gleeds) in the next few weeks to produce an updated cashflow and map that against the commitments (as budget is needed before a project element can commence).

The budget allocated and spend to date is set out in the papers to last Board.

I'll send Alan a Pdf of spreadsheet.

We got an updated cashflow from Gleeds last night.

It needs some work to reconcile to SOC cashflow in report that accompanies R&P. Not straightforward.

We are in a position where we have no choice but to say that we have access to sufficient funds to progress to end of year. We will work on this basis.

Can you provide Alan with spend to date and remaining budget please ?
He is also asking whether we have enough budget to make it to the autumn debate.... what
can he say ?...minded to say that it is likely that sufficient budget is available and if not then
contingencies will be used to bridge the gap till debate? It is not clear to me whether this is
true except for hotel purchases ?

Dear Colleagues,

In advance of the debate on P.130/2016 (Future Hospital Funding) next week, I felt it only right and proper to advise you that the Corporate Services Scrutiny Panel has decided to withdraw paragraph 1 of its amendment. This relates to the terms of reference for the Hospital Construction Fund. An amended version of the terms of reference has been included in the re-issue of P.130, and this has resolved the initial concerns that the Panel had in this respect.

For ease of reference, the Panel's amendment can be found here:

'Deferment of hospital funding.

This should be seen as a 'blessing'!

The whole design and construction is wrong.

Concrete deteriorates over the years. In 50 years time imagine the problems trying to demolish all the concrete and steel.

The cost of this would be enormous, for our childrens children.

One is left wondering how such a design was ever reached considering the many millions has been spent and still spending, on the Future Hospital team and external consultants.

The design should be plastic coated insulated metal panels, sectional build.

Off site modular construction, which would allow for sections to be removed and replaced with minimal inconvenience to patients, staff and cost.

It is never too late to admit you took the wrong approach, for some they will never admit they were wrong and will guide others into 'one gigantic crevice a big black hole' financially speaking.

I am sure [REDACTED] of the [REDACTED] will be able to offer his advice and contacts, because he has used similar for the [REDACTED].

Dear Senator,

Just to let you know I'll be coming along at 1230 with Luxmy and while she's setting up the camera I'll interview you for radio if that's OK. Then tv won't need to do a longer radio interview with you and can just get shorter clips. I understand it'll be around 1230/1245 depending on the situation in the states.

Hope this is OK. If it isn't just let me know and Luxmy can go it alone.

Best wishes,

Goodness me..

I've just been to bbc jersey to talk about The threat level and I was asked (off air) whether there was now private money being offered to solve the hospital funding !! Very strange stories going around.

It has taken a while for me to finish this email because I have just been talking to Alan (again). We agree that we must send out some clear messages as a team, setting dates and expectations. Andrew's interview reassuring people that the project continues is well timed and a good start.. we need to keep on that front foot

No [REDACTED] Haven't had an email response and was trying to phone them from early on but I know they are busy! Would appreciate you chasing on our behalf. I think the Minister spoke to Mark at the end of yesterday so it shouldn't be a complete surprise.

Hi Kevin,

Has Will or Mark got back to you about this yet? (Lisa is away at a conference in Gibraltar.) I am not involved in the distribution of statements, and I'm sure Will and Mark are over in the States Chamber by now, but I can chase this up for you if you haven't had a reply from one of them.

Hi Kevin

The Panel's scheduled hearing with the chief minister tomorrow has been cancelled, so would it be possible to arrange a briefing on hospital funding for tomorrow afternoon if the Minister is available? The preferred times would be 1pm, 2pm or 4pm.

FUTURE HOSPITAL FUNDING STRATEGY (AS AMENDED) (P.130/2016, AS AMENDED)

PROPOSED DEBATE RUNNING ORDER

Proposed running order

Comments

Minister proposes P.130, as amended. He may wish to do so as amended by paragraph 1 of the 4th Amendment and paragraph 1 of the 2nd Amendment

If so, paragraph 1 of the 4th Amendment and paragraph 1 of the 2nd Amendment are adopted

Alternatively, after P.130, as amended, is seconded, the Minister will be invited to propose paragraph 1 of the 4th Amendment which is debated and voted on in the normal way, followed by paragraph 1 of the 2nd Amendment, which is dealt with similarly.

Deputy Le Fondré is invited to propose paragraph 1 of the 3rd Amendment on behalf of the Corporate Services Scrutiny Panel. This amendment is debated and voted on in the normal way.

Deputy Le Fondré is invited to propose paragraphs 2, 3, 4 and 5 of the 3rd Amendment on behalf of the panel. These must be taken together as they are inter-linked. The paragraphs are treated as one amendment, debated and voted on in the normal way. If these paragraphs are adopted, paragraphs 2, 3, 5, 6 and 8 of the 2nd Amendment and paragraph 2 of the 4th Amendment fall away.

IF paragraphs 2 to 5 of the 3rd Amendment are adopted, the Minister will be invited to propose paragraph 4 of the 2nd Amendment, which will be debated and voted on in the normal way. Similarly, the Minister will next be invited to propose paragraph 7 of the 2nd Amendment which will be dealt with in the normal way.

IF paragraphs 2 to 5 of the 3rd Amendment are rejected, the Minister will be invited to propose paragraph 2 of the 4th Amendment

The Minister could seek to take paragraphs 4 and 7 together, although members may request separate votes on the paragraphs.

IF paragraphs 2 to 5 of the 3rd Amendment are rejected, the Minister will be invited to propose paragraphs 2, 3 (as amended - subject to the agreement of the Assembly), 5, 6 and 8 of the 2nd Amendment, which must be taken together as they are inter-linked. The paragraphs are treated as one amendment, debated and voted on in the normal way. The Minister will next be invited to propose paragraph 4 of the 2nd Amendment and then paragraph 7 of the 2nd Amendment, both of which are debated and voted on separately in the normal way.

The Minister could seek to take all the remaining paragraphs of the 2nd Amendment together, although members may request separate votes.

Once the amendments are dealt with, debate on the proposition, as amended, resumes. Once concluded, it is voted on in the normal way.

Alan

Sorry - I have to go early today but am in on Monday.

The Panel have confirmed they are withdrawing paragraph 1 of the 3rd Amendment.

You will need a small amendment to your opening speech for paragraph 1 of the 4th amendment (changing "expenditure" to "budget").

(Assuming the Panel's amendments are defeated) you will need a new speech to introduce para 2 of the 4th amendment - setting the maximum borrowing at 275m

For information.

To be clear - they have read out quotes and asked what we think it the past. This time the quote will also be a screen - presumably so they can continue to reference the quote as you seek to respond.

I think the quotes could be from other ministers, or from other interested parties. There are no cameras in the meeting.

Thanks Christine.

Just to make you aware that the Panel might make use of the TV screen in the room to display information relevant to a couple of questions- i.e. where an extract or quote would usually be read out before asking for comment, it might also be displayed on the screen.

I have also been asked to enquire about the timing and itinerary for the Chief Minister's next trip to China, as the questions on Africa strategy might touch on other global links as well.

Kind regards

Christine, Paul

Just to expand slightly on the below question areas in advance of Thursday's hearing with CSSP.

The first 3 areas in [REDACTED] email below should be self explanatory.

The section on electoral reform has been dropped from the question plan.

The questions on Immigration will be specifically around P.26 - Immigration (Amendment) (Jersey) Order 2017: Extension to Jersey By Order in Council Population - this will be around population policy and also the long term strategy Visits to Africa - this is likely to cover policy/strategy towards relationships with African countries

The Panel would also like to ask a couple of questions on FOI - progress since implementing the FOI law and the process for answering requests.

In light of the withdrawal of the hospital funding proposals, there are likely to be a couple of questions on this as well.

Please could you confirm tomorrow who will be appearing at the hearing with the Chief Minister?

If you have any questions, please contact me.

Kind regards
