Please find attached the submission for the Chief Minister's Department for Part A only of the attached question on mobile phone spend between October 2014 and February 2018 (the detail behind the summary is attached for information only in the template and should not be submitted as part of the published reply)

I have excluded purchases of equipment where I was able to identify the spend and due to the timing of some invoices being received I have used the narrative to identify which month they relate to and adjusted accordingly

As has been discussed previously it has been confirmed that costs for January and February 2018 are only the base monthly costs and do not include any roaming spend incurred

With Kind regards
