

### Response to FOI request

Please note that we are only able to provide data relating to students registered with Student Finance, therefore Jersey students who attended University but did not register with Student Finance are not included in the data. In 2016 we plan to publish a report using data from UCAS (Universities and Colleges Admissions Service) and HESA (Higher Education Statistics Agency) which will include all students. We are unable to run reports which include numbers of students reading first degrees only, therefore the data relate to students studying both undergraduate and postgraduate courses.
